

## 2025 Residential Summer Sewage Rates

Residential Summer Sewage rates start with the July billing for the June consumption.

The account number is the number **after** the dash on your bill.

Actual start date will depend on when the meter is actually read.

- **Residential single family or duplex housing accounts only.** Multi-family and commercial accounts do NOT receive summer sewage rates.
- Sewage consumption is capped at the customer's average over the winter months. If the usage is less than the winter average, then it will be the lesser amount. If a customer just moved in, then this year's summer sewage is based on half of the water usage.
- Sewage does NOT cost less in the summer. It is still a base of \$5.55 + \$7.39/1,000 gallons used. The difference is that the # of gallons of sewage that we bill is based on the winter average, not the actual summer consumption, unless it is less than average.
